Annual E governance report (FY2020-21)

The annual e-governance report for an engineering college provides a comprehensive overview of the college's digital governance initiatives, progress, and achievements throughout the year. It focuses on the effective use of technology, digital infrastructure, and online services to enhance administrative processes, academic operations, and overall institutional management. The report showcases the college's commitment to leveraging digital solutions for improved efficiency, transparency, and stakeholder engagement. The annual e-governance report serves as a documentation of the college's progress, challenges, and future directions in utilizing technology for efficient governance, ultimately contributing to the overall growth and development of the institution.

S. No.	Name of the operation	Area of operation
1	Central Information System (CIS)	This software simplifies tasks that were traditionally done manually, such as student admissions, course registration, fee management, attendance tracking, examination management, and academic record keeping.
